

MR. DUCKETT

Carl: FYI

As you requested Friday afternoon,
I took the appropriate action on the draft
Briefing Paper being prepared for the
Director in his meeting with that "Asian
Dignitary." OSI and FMSAC had minor changes
which I relayed to [REDACTED] office before STATINTL
COB on Friday. No further action required.

Review of Draft Briefing
for DCI

Walt:

I just received the attached draft briefing which has been prepared for the DCI to use. The covering sheet is self-explanatory but it gives a deadline of start-of-business on Monday, 16 October. I just received this at 1525 today (Friday). Although this is a mighty short fuze, it's just a matter of checking for inconsistency and updating. Would you check this through NED and DSD particularly, and then send it down to FMSAC for coordination. Please bear in mind and relate this to FMSAC that we must have this back in our hands by 0830 Monday morning with your approval or any recommended changes.
